

Hideaway Storage Table

Assembly Instructions

cef

INNOVATE.CREATE.REPEAT.

Components

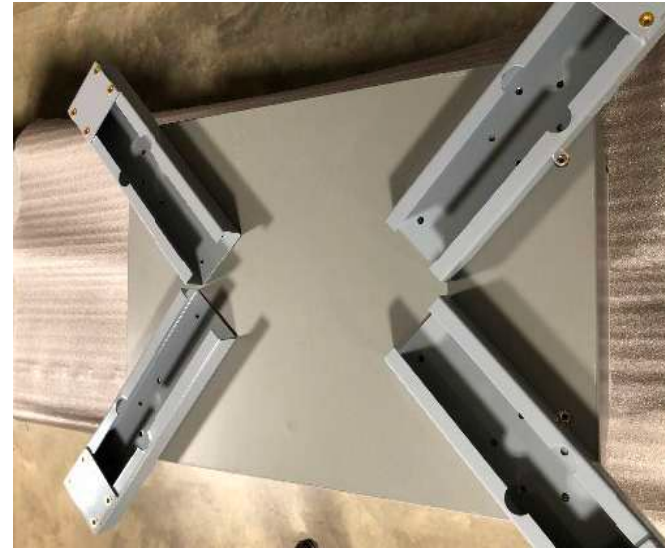

What's in the Box!

- 4 – ¼" 20 X 1 3/8" ZINK BOLT (LONGER BOLT FOR TABLE TOP)
- 36 – ¼" 20 X 1" ZINK BOLT (SHORTER BOLT FOR LEGS AND CASTER)
- 4 CASTERS
- 4 METAL LEGS

Time to Assemble

Let's Get Started!

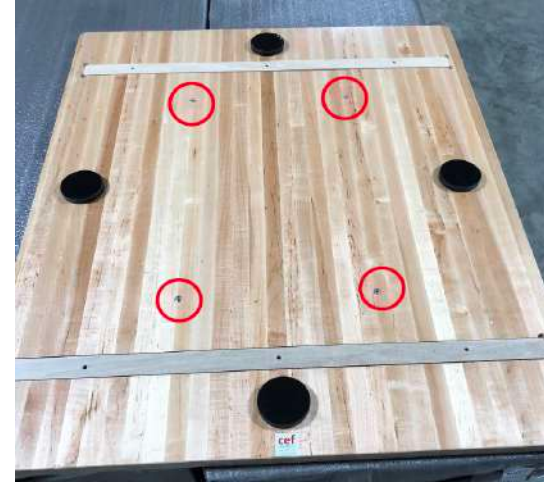

1

Begin by attaching the metal legs to the bottom of the base. Remove any loose bins or shelves from inside the base and turn the base of the table upside down.

Align the open end of the metal legs to the diagonally facing most inner screw inserts. The end of the leg with the plate cover and 4 screw inserts should be facing away from the table. Position the table leg so that the insert holes on the base align with the holes in the leg as pictured. Secure each hole aligned with

Time to Assemble

Almost done...

2

Attach the 4 casters to the end of each leg using the remaining $\frac{1}{4}$ " 20 x 1" zinc bolts, 4 bolts for each caster.

3

Flip the table base upright and place the top onto the base aligning the 4 bolt inserts on the underside of the tabletop to the holes in the top of the base. Secure the tabletop to the base with the 4 longer $\frac{1}{4}$ " 20 x 1 $\frac{3}{8}$ " zinc bolts through the inside of the table base to the table top using a 532 hex bit.

4

Place the bins or internal shelves back into the base.

Completion

Yay!

Your table is now **complete** and ready to use! Above is an image of the Hideaway Storage Table fully assembled.
