Gratnells

What's in my tray

Need to keep your class occupied at wet play? Looking for some last minute lesson ideas? Want to get creative in the classroom? If you have Gratnells in your classroom, then we are here to help...

What's in my tray was created on social media to encourage teachers and technicians to use their Gratnells trays as part of their teaching resources. Our in-house ideas are shared on our Gratnells social media channels to inspire and motivate you to incorporate our trays into your daily lesson plans.

Whether it's Science, Creative, Maths or Outdoors, we have a What's in my tray suggestion for you and your class....

Benefits of What's in my tray? and using Gratnells trays in the classroom...

Not just a helpful and reliable storage solution, Gratnells trays also make the perfect classroom assistant when planning lessons. What's in my tray? is an idea created on social media to encourage school teachers and technicians to use Gratnells trays as part of their teaching resources and lesson planning. Spanning across a range of different taught subjects and extracurricular tasks, there is bound to be an activity for the topic you're teaching.
