MSRP Price: \$609.99

31" W x 31.5" D x 18.5" H

Ship Weight: 32 lbs

Warranty: 1 Year

Made in United States

JonTi-Craft® Wood LEGO® Square Storage Table - 5355JC

Some kids build best when they have their own space. The Wood LEGO® Square Storage Table gives young builders a dedicated spot to create, with four color LEGO® base plates set into a clear-finished Baltic birch wood frame that is as good-looking as it is durable. It is a natural fit for any classroom, daycare, or activity table area where kids gather to play and build.

The square format keeps things contained and focused, making it a smart choice for smaller play spaces or settings where kids work individually or in pairs. Everything they need is right there at the table, with the built-in mesh storage bag keeping extra LEGO® bricks organized and within reach throughout the day.

Cleanup is just as thoughtful as the design. When building time is over, the Velcro closure draws the bag shut and the whole thing detaches cleanly from the table for washing. Teachers and caregivers can reset the space quickly and move on without chasing bricks across the room.

The wood construction brings warmth and sturdiness to any learning environment, holding up to the daily demands of active kids without showing its age. Whether it anchors a dedicated LEGO® table zone or fits into a rotating activity table setup, this storage table pulls its weight in any early childhood space.

Built to JonTi-Craft® standards, it is the kind of furniture that works as hard as the kids playing at it.
