

Convenient and flexible workspace.

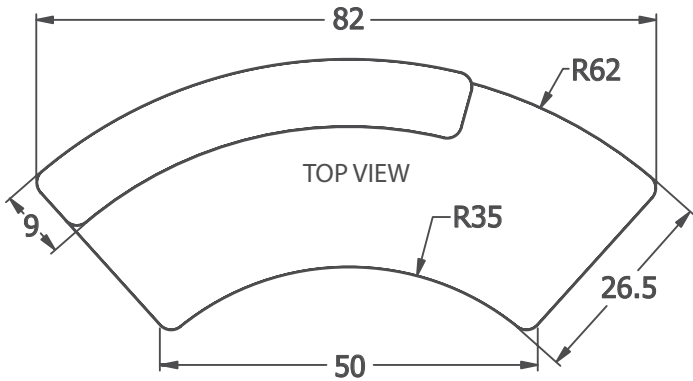

The Rover Desk

 **Russwood[®]**

Specifications

- 1 Desk work surface cores are 1" thick particle-board with horizontal grade laminate top surface and a balancing backer sheet to finish.
- 2 Edges are 3mm PVC edge band with machine application (Not hand applied). PVC is eased to a 1/8" radius to remove sharp edges.
- 3 16 gauge welded steel frames with durable powder coat finish.
- 4 1/8" thick decorative acrylic panels are available for desk fronts and patron ledges.
- 5 Front panels are constructed of 1" thick veneer core plywood with horizontal grade laminate finish.
- 6 3" diameter swivel and locking contemporary casters.

ROVER DESK

Today's media centers and classrooms are versatile, with spaces designed to adapt. So why be confined to one location in the room? The rover desk allows for a convenient and flexible workspace, so that you can relocate wherever you need to be. Built with high quality materials and construction, this desk not only looks great, it will stand the test of time.

Rover desk work surfaces come with a standard overhang. However, upon request, we can adjust the tops to align more closely with the end panels. This modification reduces the gap between desks when arranged together. Refer to the scene image above for an example.
