

**OVERVIEW**

The Cascade series provides storage for a wide variety of items. The Mid-Cabinet is a medium width, medium height cabinet in the Cascade grouping, measuring in at 43 5/16" tall, 28 5/8" wide and 19" deep.

**MATERIALS**

The end panels are made of 18-gauge 1" square tubing, welded flush to an 18-gauge end panel. The inside of each end panel is reinforced by 22-gauge hat channels. These hat channels are dual purpose: added strength and for tote rail shelf mounting. The dome top is 18-gauge formed and welded construction, bolted to each end panel and rear panel with a total of 10 machine screw fasteners. The base is a durable 18-gauge steel construction formed and welded to support the entire weight of the unit squarely. Underneath is a heavy welded hat channel reinforcement. The base shelf is attached to both end panels using 4 machine screw fasteners. The rear panel is 18-gauge steel reinforced with up to three vertical hat channels. Two grommet holes (a lower and upper) are punched for convenient wire management and electronic storage. Casters are 4" in diameter, with 2 locking. Optional glides are 3/8" threaded stem.

Riser shelves are sized perfectly for each cabinet size. These riser shelves are made of 3/4" high density particle board with your choice of laminate and bullet T-Mold color. Shelf is suspended 6 inches above the dome top with 4 riser shelf handles, which measure 1 1/2" diameter and come in Platinum powder coat paint finish (0.03" thickness). These riser shelf handles bolt on from underneath the dome top with a hefty 3" washer.

The optional doors include a secure and reliable locking mechanism, which engages lock rods into the dome top and the base shelf. Doors also come with urethane ergonomic and modern door handles of your color choice. The fully hinged doors articulate 270 degrees, free of obstruction.
