Flowform Modular Accessories

Flowform Modular is designed to adapt, and with the right accessories, it becomes even more powerful. Enhance your space with integrated power and seamless connections that support how students learn, collaborate, and move throughout the day.

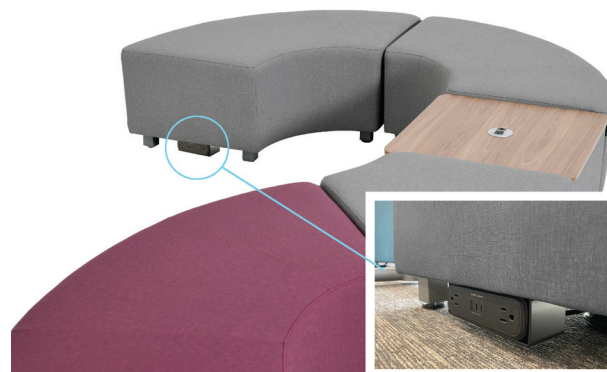

Under Surface Mount Power - Model #12224

Bring power directly to where learning happens.

- 2 standard outlets
- 2 USB-C ports
- 1 USB-A port
- Discreetly mounted under the surface for a clean look
- Keeps devices charged without interrupting flow

Why it matters:

Supports technology-rich learning environments while maintaining a streamlined, clutter-free space.

Ganging Device - Model #12221

Create stability when you need it - flexibility when you don't.

- Durable metal connector securely links modular pieces
- Push-in design allows the connector to retract when not in use reducing tripping hazards
- Creates cleaner, more intentional spaces
- One ganging device connects two pieces

Why it matters:

Easily create cohesive layouts for collaboration, then reconfigure with ease - without compromising safety.

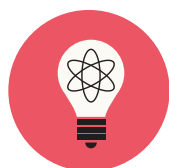

**Designed for
Versatile Learning**

Flexible Layouts that
adapt throughout
the day

Safe, connected
environments for
students and educators

Seamless integration
of technology into
learning spaces

Built for How Students Learn Today

From powering devices to connecting spaces, Flowform Modular Accessories help create environments that are as innovative as the students who use them.
